British Telecommunications Engineering

INDEX

VOLUME 4

(April 1985–January 1986)

A

Access to the ASCE, ASPRO—On-Line 156
ADAMSON, J., COLE, R. V., and MARSHALL, J. F. Introducing Automatic Cross-Connection into the KiloStream Network 124
Administration of Repair Service Controls by Computer, ARSCC/E—
Part 1—Background to Computerisation and System Philosophy 207
AMES, J. R. W. Subscriber Line Interfaces 203
Analogue Derived Services Network, An Introduction to the 129
Analysis, Microcircuit Failure 39
Analysis of System X Processor Performance Under Transient Traffic Conditions, The 199
APPLEBY, M. S., and GARRETT, J. The Cellnet Cellular Radio Network
Part 1—General System Overview 62
Applications of Different Types of Television Codecs, A Review of the 99
Arrestors—A New Approach to Dynamic Performance Testing, Fall 70
ARSCC/E—Administration of Repair Service Controls by Computer
Part 1—Background to Computerisation and System Philosophy 207
ASCE, ASPRO—On-Line Access to the 156
ASPRO—On-Line Access to the ASCE 156
Assignment Speech Interpolation Systems, Time
A Review of the Circuit Multiplication Systems Used by BTI 139
Associate Section of the Institution of British Telecommunications Engineers and its National Committee .. 118
Audiovisual Telecommunications Services—a Unified Approach 169
Automatic Cross-Connection into the KiloStream Network, Introducing 124

B

BARDOULEAU, D. A. Time Assignment Speech Interpolation Systems
A Review of the Circuit Multiplication Systems Used by BTI 139
BONSER, J. The Analysis of System X Processor Performance Under Transient Traffic Conditions 199
Book Reviews .. 20, 26, 46, 53, 73, 104, 128, 150, 244
British Telecom Press Notices
Satellite Service for Offshore Industry 55
British Telecom Radiopaging's Message Master .. 56
New Versions of Viceroy and Kinsman, and a New Featurephone 56
Tonto 57
Merlin Datelnet 500 57
Prestel for Singapore 98
British Telecom Commissions World's Most Powerful Exchange 116
Claudivs Converse 116
Improved Dial-Up for Prestel 117
Teletex Takes Off 117
British Telecom Launches Testing Service for Microchips 117
100 000-Line Milestone for British Telecom Telex 180
First Public International Videoconferencing Service 180
Imtran 181
Touchdown and British Rail 181
New Credit and Charge Card Electronic Transfer Service 181
Maritime Telex Modernisation 202
Message Link 202
Joint Venture for Electronic Business Transactions 248
Growth in the Use of Prestel 248
New Optical-Fibre Record Set to Cut Costs 248
British Telecom Taxiphone 249
Software Package for Elections 249
New Telephone Service Centre for Hull 249
BRUTNELL, R. F., and ROBERTS, G. J. An Introduction to the Analogue Derived Services Network 129
BUTLER, R. W., and CLEMITSON, M. ASPRO—On-Line Access to the ASCE 156

C

Cable Systems—Their Optical Future, Submarine .. 14
Cellnet Cellular Radio Network, The
Part 1—General System Overview 62
Cells, Maintenance-Free Gas-Recombination 105
Cellular Radio Network, The Cellnet
Part 1—General System Overview 62
Circuit Multiplication Systems Used by BTI, A Review of the
Time Assignment Speech Interpolation Systems .. 139
Circuit Testing, RATES: An Aid to Private 188
CLARK, K. J. Fall Arrestors—A New Approach to Dynamic Performance Testing 70

CLEMITSON, M., and BUTLER, R. W. ASPRO—On-Line Access to the ASCE 156
CLOW, D. G. Telephone Poles in the British Telecom Network—A Review
Part 1—Wood Poles 160
Part 2—The Wood Pole as an Engineering Structure 220
Part 3—Alternative Materials 241
Codecs, A Review of the Applications of Different Types of Television 99
COLE, R. V., MARSHALL, J. F., and ADAMSON, J. Introducing Automatic Cross-Connection into the KiloStream Network 124
Communications, Time-Division Multiple-Access Systems for Satellite 85
Computer, ARSCC/E—Administration of Repair Service Controls by .. ..

L

LANGRIDGE, K. M., and HORNE, J. M. Submarine Cable Systems—Their Optical Future 14
LCS—Shaping up for the Future
Keynote Address to the Institution of British Telecommunications Engineers 2
Letting Underground Duct Contracts, A New Method of 178
LEWIS, J. R., and ELLIOT, D. T. Time-Division Multiple-Access Systems for Satellite Communications .. 85
Line Interfaces, Subscriber 203
Lines—The Way Ahead, Local 47
LISTER, K., and RENHARD, P. A New Method of Letting Underground Duct Contracts 178
Local Exchanges, 4TEL in TXK1 102
Local Exchanges, The Introduction of UXD5 Small Digital 27
Local Lines—The Way Ahead 47
Local Network, The Integrated Services 21
LOMAS, T. Managing for Quality 216
LYALL, G. Associate Section of the Institution of British Telecommunications Engineers and its National Committee 118

M

Machines, Then and Now—A Review of PO Stamp-Selling 144
Mailbox, Teleprinter No. 74A: Puma 74A with 9
Maintenance-Free Gas-Recombination Cells 105
Managing for Quality 216
Manholes, New Concepts in the Design of 111
MARSHALL, J. F., ADAMSON, J., and COLE, R. V. Introducing Automatic Cross-Connection into the KiloStream Network 124
MARSHALL, J. F., GALLAGHER, R. M., and RATTI, A. RATES: An Aid to Private Circuit Testing 188
Mathematics for System Design, An Introduction to 230
Merlin Voice Mail VM600 32
Method of Letting Underground Duct Contracts, A New 178
Microcircuit Failure Analysis 39
Multiple-Access Systems for Satellite Communications, Time-Division 85

N

National Committee, Associate Section of the Institution of British Telecommunications Engineers and its .. 118
Network, An Introduction to the Analogue Derived Services 129
Network, Introducing Automatic Cross-Connection into the KiloStream 124
Network, The Cellnet Cellular Radio
Part 1—General System Overview 62
Network, The Integrated Services Local 21
Network—A Review, Telephone Poles in the British Telecom
Part 1—Wood Poles 160
Part 2—The Wood Pole as an Engineering Structure 220
Part 3—Alternative Materials 241
Networks, ISDN—Interworking with other 151
New Concepts in the Design of Manholes 111
New Method of Letting Underground Duct Contracts, A 178
NEWMAN, P. J., JAMES, P., and NORRIS, M. T. An Introduction to Mathematics for System Design 230
NEWSON, C. R. Merlin Voice Mail VM600 32
NORRIS, M. T., NEWMAN, P. J., and JAMES, P. An Introduction to Mathematics for System Design 230

O

O'CONNOR, J. A., and DOODY, R. J. Maintenance-Free Gas-Recombination Cells 105
On-Line Access to the ASCE, ASPRO— 156
Optical Future, Submarine Cable Systems—Their .. 14

P

PAYNE, D. B., REEVE, M. H., and HOOPER, R. C. The Development of Single-Mode Fibre Transmission Systems at BTRL
Part 1—Early Developments 74
Performance Testing, Fall Arrestors—A New Approach to Dynamic 70
Performance Under Transient Traffic Conditions, The Analysis of System X Processor 199
PO Stamp-Selling Machines, Then and Now—A Review of 144
Poles in the British Telecom Network—A Review, Telephone
Part 1—Wood Poles 160
Part 2—The Wood Pole as an Engineering Structure 220
Part 3—Alternative Materials 241
Press Notices, British Telecom 55, 56, 57, 98, 116, 180, 202, 248
Private Circuit Testing, RATES: An Aid to 188
Processor Performance Under Transient Traffic Conditions, The Analysis of System X 199
Product News
Merlin TX72 Featurephone 120
Monarch IT440 120
Merlin Pentara 100 121
New Merlin Modem—V32 Modem for Two-Wire Operation at 9600 bit/s 121
Merlin CM800 Series Call Management System 121
Merlin Octara 32 182
New British Telecom Inphones—Rondo and Slimtel 10 182
MerlinFax 183
Mainframe Access for Merlin Tonto 183
Puma 74A with Mailbox, Teleprinter No. 74A: 9

Q

Quality, Managing for 216

R

Radio Network, The Cellnet Cellular
Part 1—General System Overview 62
RATES: An Aid to Private Circuit Testing 188
RATTI, A., MARSHALL, J. F., and GALLAGHER, R. M. RATES: An Aid to Private Circuit Testing 188
REEVE, M. H., HOOPER, R. C., and PAYNE, D. B. The Development of Single-Mode Fibre Transmission Systems at BTRL
Part 1—Early Developments 74
RENHARD, P., and LISTER, K. A New Method of Letting Underground Duct Contracts 178
Repair Service Controls by Computer, ARSCC/E—Administration of
Part 1—Background to Computerisation and System Philosophy 207
Resources Centre, Telecom Technology Showcase
In Search of The Past, Present and Future 158
Review, Journals Past—A 30
Review of Past Journals, A
From Time to Time 235
Review of PO Stamp-Selling Machines, Then and Now—A 144
Review of the Applications of Different Types of Television Codecs, A 99
Review of the Circuit Multiplication Systems Used by BTI, A
Time Assignment Speech Interpolation Systems .. 139
Review, Telephone Poles in the British Telecom Network—A
Part 1—Wood Poles 160
Part 2—The Wood Pole as an Engineering Structure 220
Part 3—Alternative Materials 241
ROBERTS, G. J., and BRUTNELL, R. F. An Introduction to the Analogue Derived Services Network 129
ROSLING, D., and RUNDEL, R. 4TEL in TXK1 Local Exchanges 102
RUNDEL, R., and ROSLING, D. 4TEL in TXK1 Local Exchanges 102

S

Satellite Communications, Time-Division Multiple-Access Systems for 85
Services Local Network, The Integrated 21
Services Network, An Introduction to the Analogue Derived 129
Services—a Unified Approach, Audiovisual Telecommunications 169

Showcase Resources Centre, Telecom Technology
In Search of The Past, Present and Future 158
Single-Mode Fibre Transmission Systems at BTRL, The Development of
Part 1—Early Developments 74
Part 2—Recent Developments 193
Small Digital Local Exchanges, The Introduction of UXD5 27
SMITH, D. W., and HOOPER, R. C. The Development of Single-Mode Fibre Transmission Systems at BTRL
Part 2—Recent Developments 193
SONGHURST, D. J. The Eleventh International Teletraffic Congress, Kyoto, 1985 245
Speech Interpolation Systems, Time Assignment
A Review of the Circuit Multiplication Systems Used by BTI 139
SPURGIN, D. A., and CROOKS, K. R. Inphone—Into Christmas—In the Future
The IBTE Christmas Family Lecture 1984 36
Stamp-Selling Machines, Then and Now—A Review of PO 144
STEPHENS, C. E., and TAYLOR, R. G. Microcircuit Failure Analysis 39
Submarine Cable Systems—Their Optical Future.. .. 14
Subscriber Line Interfaces 203
Switching Symposium, 1987, International 219
System Design, An Introduction to Mathematics for 230
System X Processor Performance Under Transient Traffic Conditions, The Analysis of 199
Systems at BTRL, The Development of Single-Mode Fibre Transmission
Part 1—Early Developments 74
Part 2—Recent Developments 193
Systems for Satellite Communications, Time-Division Multiple-Access 85
Systems, Time Assignment Speech Interpolation
A Review of the Circuit Multiplication Systems Used by BTI 139
Systems—Their Optical Future, Submarine Cable .. 14

T

TAYLOR, R. G., and STEPHENS, C. E. Microcircuit Failure Analysis 39
Technology Showcase Resources Centre, Telecom
In Search of The Past, Present and Future 158
Telecom Technology Showcase Resources Centre
In Search of The Past, Present and Future 158
Telecommunications Services—a Unified Approach, Audiovisual 169
Telephone Poles in the British Telecom Network—A Review
Part 1—Wood Poles 160
Part 2—The Wood Pole as an Engineering Structure 220
Part 3—Alternative Materials 241
Teleprinter No. 74A: Puma 74A with Mailbox 9
Teletraffic Congress, Kyoto, 1985, The Eleventh International 245
Television Codecs, A Review of the Applications of Different Types of 99
Testing, Fall Arrestors—A New Approach to Dynamic Performance 70
Testing, RATES: An Aid to Private Circuit 188
Then and Now—A Review of PO Stamp-Selling Machines 144
Time Assignment Speech Interpolation Systems
A Review of the Circuit Multiplication Systems Used by BTI 139
Time-Division Multiple-Access Systems for Satellite Communications 85
Traffic Conditions, The Analysis of System X Processor Performance Under Transient 199
Training for the 1980s and 1990s, Engineering Education and 52
Transient Traffic Conditions, The Analysis of System X Processor Performance Under 199
Transmission Systems at BTRL, The Development of Single-Mode Fibre
Part 1—Early Developments 74
Part 2—Recent Developments 193
TXK1 Local Exchanges, 4TEL in 102

U

Underground Duct Contracts, A New Method of Letting 178
UXD5 Small Digital Local Exchanges, The Introduction of 27

V

VALLANCE, I. D. T. LCS—Shaping up for the Future
Keynote Address to the Institution of British Telecommunications Engineers 2
Voice Mail VM600, Merlin 32

W

WATSON, I. The Integrated Services Local Network 21

VOLUME 4

Part 1 (Apr. 1985) .. .. pp. 1–60
Part 2 (July 1985) .. .. pp. 61–122
Part 3 (Oct. 1985) .. .. pp. 123–185
Part 4 (Jan. 1986) .. .. pp. 187–250

Published by *British Telecommunications Engineering Journal*, 2–12 Gresham Street, London EC2V 7AG,
and printed in Great Britain by Unwin Brothers Limited, The Gresham Press, Old Woking, Surrey
